AMR SHOUSHA

Frontend Developer

Mansoura, Egypt | 01013650724 | amrshousha02@gmail.com | amrshousha.com | github.com/Amr-shousha

---

SUMMARY

Frontend Engineer specializing in React.js, component-driven UI architectures, and modern state management. Experienced in translating Figma designs into optimized production code with sub-second rendering, integrating Supabase/PostgreSQL backends, and building interactive, AI-driven web and mobile interfaces.

SKILLS

- **Frontend:** React.js • JavaScript (ES6+) • Vite • HTML5/CSS3 • Sass • Bootstrap • Responsive Design
- **Backend & Databases:** Supabase (PostgreSQL) • REST APIs
- **Familiarity / Exposure:** Python • Node.js • React Native • LangChain • LlamaIndex • Gradio UI
- **Tools:** Figma • Git / GitHub
- **Languages:** Arabic (Native) • English (Intermediate) • German (A1)

EXPERIENCE

Applied AI Extern | Pfizer & Extern (June 2026)

- Developed PharmaDoc-AI-Assist a secure local RAG workspace with **95%+** retrieval precision for private data.
- Developed a responsive operational UI dashboard using Gradio's advanced layout themes, integrating LangChain text splitters and LlamaIndex to cut matching latency by **40%**.
- Engineered an offline extraction pipeline using quantized LLMs (Mistral-7B GGUF) to prevent data leaks..

PROJECTS

FilmFlow | AI-Integrated Film Platform (March 2026)

- Architected a real-time film platform using **React.js and Supabase** to seamlessly manage active user states.
- Developed a semantic "Mood-Based" search leveraging **Gemini 1.5 Flash** to parse complex user context.
- Optimized build pipelines via **Vite and Bootstrap** to achieve sub-second (<1s) responsive page transitions.

AI-Driven Resume Screening & Job Matching System | Graduation Project (July 2026)

- **Spearheaded the development of a React Native mobile app**, boosting resume parsing efficiency by **50%** through optimized rendering and data flow pipelines.
- **Built scalable Supabase relational schemas and state architecture**, enabling seamless handling of **1,000+ concurrent user connections**.
- **Integrated intelligent, AI-powered user interfaces** with optimized local caching to guarantee fluid navigation and immediate user feedback on mobile devices.

CERTIFICATIONS

Professional Scrum Master I (PSM I) – Scrum.org • Advanced UX Design – Udacity & MCIT • Build with AI: Masr Edition – Google & ITI • Digital Marketing Nanodegree – Udacity & MCIT • Design Thinking for Innovation – Coursera & University of Virginia • Goethe-Zertifikat A1 – Goethe-Institut

---

EDUCATION

- **B.S. in Software Engineering** | Mansoura University (Faculty of Computer & Information Sciences)
- Expected Graduation: July 2026
